DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a composition and method for inhibiting the effects of stress on the skin comprising administering the recited composition of claims 1 and 4.

Group II, claim(s) 8-15, drawn to a method for identifying a compound capable of reducing the effects of psychologically-mediated stress on the skin.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical features of groups 1-II lack the same special technical feature. The special technical feature of Group I, are to administer a composition comprising the recited ingredients in claims 1 and 4. The special technical features of Group II comprise of reducing the effects of stress on the skin comprising steps (i) through (vi) which involve contacting and analyzing one or more cellular markers disclosed in claims 8 and 15. Therefore, the inventions listed as Groups I-II do not share a corresponding special technical feature under PCT Rule 13.2. Subsequently, Groups I-II lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
